For Immediate Release

UNITED SERVICE SOURCE, INC. RETURNS FROM SATELLITE EXPO 2006

MELBOURNE, FL June 28, 2006- United Service Source, Inc a leader in field maintenance and system integration for multiple technology markets including commercial communication systems, government weather, consumer sites, digital media and broadcast host locations returns from their showing at the second annual, Satellite Expo 2006.

This year's convention kicked off at the Georgia International Convention Center in Atlanta, Georgia April 18th through April 22nd. In the heart of peach and pecan country, exhibitors, dealers and technicians gathered to learn about new products, place faces with names and pursue new business.

What is the Satellite Expo?

Satellite Expo 2006 provides the opportunity for satellite retailers, technicians and exhibitors to establish long term business relationships and learn about the latest products, services and technologies. A huge exhibit floor, certification and training classes, educational forums ranging from business to technical, plus the opportunity to greet old friends and meet new ones, Satellite Expo 2006 could be the giant step needed to grow USSSI's business.

See more at: <http://www.satelliteexpo2006.com>.

This is a great medium to meet others in the industry and pick up new tips, tricks and knowledge while having a good time at all the special events offered. We all work hard throughout the year, so it is nice to meet others to share the ups and downs we experience each day as part of being in the satellite/communications industry.

USSSI at the Expo

Kelly Rich, VP of Operations, Steve Hathcock, Business Development, and Allen Newman, Technical Support Manager, were available to meet with old, new and future technicians alike. USSSI enjoys having the opportunity to meet those whom we may have only talked with on the phone or shaking hands with those we have been doing business with since our inception in 1985!

Additional details regarding USSSI are available at www.USSI.org
